DETAILED ACTION

1. The Applicants' preliminary amendment filed December 13, 2005 is acknowledged. Claims 2-5 are amended. Now, Claims 1-6 are pending.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 (partial), 2 and 4-6, drawn to a silicone-based PSA containing an aromatic amine compound that **does not** have any siloxane moieties.

Group II, claim(s) 1 (partial) and 3-6, drawn to a silicone-based PAS containing an **organopolysiloxane** having aromatic amino groups.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack

the same or corresponding special technical features for the following reasons: The PSA of Group I contains an aromatic amine compound that **does not** have any siloxane moieties, while the PSA of Group II contains an **organopolysiloxane** having aromatic amino groups.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
